The 1190 Adventure R has the heart and soul of the original KTM Adventure - puristic, raw, sportily challenging for rider and machine. This is the "non plus ultra" for sporty offroad traveling. Alpine gravel passes, desert pistes mixed with dunes, bad roads at the end of the world - This is the perfect bike. In 2014 it was the first bike, serially equipped with Bosch's MSC: Motorcycle Stability Control. MSC enhances the existing package consisting of lean-sensitive traction control and ABS featuring a combined braking function with a world first: the first ever lean-sensitive cornering ABS. Together with its sister model, the 1190 Adventure R has been turned into what is currently the world's safest motorcycle - yet still with undiluted riding pleasure. Hence, the Adventure R is aimed at all those who take the term "adventure" even more literally. The 1190 Adventure R is without doubt the twin-cylinder enduro with the greatest offroad ability.
