

ZOOLTRO GAS AND ELECTRIC HEATER (800 R)

Location **Gauteng, Johannesburg**
<https://www.freeadsz.co.za/x-101062-z>

This is brand new and please note the price is not negotiable thank you.
 Can supply 9kg full bottle of Gas with heater for R650. Regulator and pipe R90

Zooltro

Operated by both Electricity and Gas

4.2 Kw Portable Gas Cabinet Heater

with

1200W Electric Halogen Heater

A perfect solution when the gas runs out unexpectedly in the middle of the. Simply turn on the halogen and you heating is restored. Do away with numerous heater around the house just have one instead.

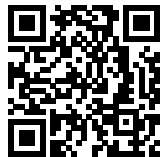

This heater is easy to set up, outputs maximum heat and will keep any pair of feet warm.

There are 3 gas heat settings (1.4, 2.8 and 4.2kw) to choose from so you can get the correct amount of heat when needed.

It is a self start and has a switch which makes it portable and easy to move for
 in the house and including garage, workshop etc.,.
 If you have a partner if the power goes out or the electricity the heater will just start on the gas
 No gas just plug it in.

Cylinder (Max 13KG) placed in the body, can be moved to any needed place

Adopt advanced ceramic burning technology, to enabling twice burning.
 99% thermal efficiency, noise free, energy saving

Adopt infrared radiation heating, which is rapid and smooth

Adjusted by three gear firepower, to meet the heating demands of different temperature and space

Piezo ignition, environmental durability, and the firing rate reach 90%.
Barrier-free to pass fire under low-pressure cold state

Technical parameters of electrical warm air heating:

Voltage: AC220V-50Hz

Safe protection devices: ODS, over-heating protection

Power(three heating pipes): 600W(Small) 1200W(Middle) 1800W(Large)

Technical parameters of gas infrared heating:

Gas type: LPG

Power(three heating pipes): 4.2KW(Large), 2.8KW(Middle), 1.4KW(Small)

Gas consumption: 310g/h(Large), 210g/h (Middle), 110g/h (Small)

Safe protection devices: flame failure protection, anoxic
