Redefine what a phone can do

We're completely changing how you'll share experiences and memories. We're doing that by shattering the boundaries of what a phone can do. And it's the biggest thing to happen to phones. Ever.

Display

Put on the Gear VR, and you're there in the moment. A Super AMOLED display, wide field of view, precise head-tracking and low latency brings reality to the virtual.

Compatibility

Gear VR works seamlessly with Galaxy smartphones*. All you need to do is slip in your phone and you're free to take on the world and beyond.

*Compatible with Galaxy S7 | S7 edge, Note5, S6, and S6 edge.

Design

To reach new levels, a comfortable headset is a must. That's why with a wider interface, Gear VR is now 19% lighter compared to the previous model. And with its larger touchpad, you get easy and accurate control.

*Without Galaxy smartphone.
