Hi there,  
 I am selling a E-commerce website. This website with all the products from the suppliers. Your clients can then search through the products and submit an online quote request.

- The system currently has 25,000+ products listed
- We do the installation on your website / domain
- We load all the products from all the available suppliers
- You set your own profit margin
- Maintenance: we update the products and prices on your system when the suppliers release their new price lists.
- We add the images on new products

You don't have to do any installations or maintenance, your only responsibility is to get traffic to your website and to quote your clients when you receive quote requests.

We can change the website to what you would like to have look like, upload your company.
