### Product Overview

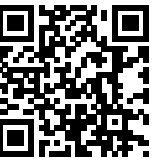

The Logitech BCC950 ConferenceCam System is a camera conferencing system which includes a ConferenceCam base with attached USB cable, a remote control, an extender, and a webcam head. The camera features motorized zoom, pan, and tilt, providing the user with the ability to adjust camera settings. It combines HD 1080p 30fps video with high-quality full-duplex speakerphone clarity for business-grade video conferencing. UVC H. 264 onboard technology helps ensure quick Plug-and-Play functionality on both PCs and Macs - no software to install. The built-in, full duplex speakerphone and noise-canceling microphone allow all meeting members to hear and be heard clearly up to 2.5 metres away from the base.

### Highlights

- All-in-one design- HD 1080p video and professional audio business-grade videoconferencing
- Connects to Your PC- no software to install.
- Perfect for small groups up to 4 people

The first all-in-one video and audio conferencing device designed with small groups in mind. Groups can collaborate over video from anywhere -- no more competing for those overbooked conference room systems, or huddling around a single PC, just to have a video meeting. Professional HD video lets small groups be seen and superior audio lets small groups be heard. Remote control and on-unit buttons help control the call from anywhere in the.
