

Samsung Gear S for sale. (2600 R)

Location **Gauteng, Centurion** https://www.freeadsz.co.za/x-176116-z

The Gear S is the ONLY Samsung smartwatch that is capable of taking a SIM card. The Gear S, like all the other Gears, connects to the phone via bluetooth. However, this can be used as a phone on its own. That means making and receiving calls and browsing the web right from your wrist!

Another unique aspect of the Gear S is the charging dock. Once it is fully charged, it acts like a powerbank and can charge the watch to +-80%.

The watch was well kept. There are however some scratches on the bezel(See photos).

Includes the:

- *box with matching IMEI numbers
- *tool to remove the SIM
- *wireless charger/charging dock, charger
- *and information booklets.

Included as well is an extra strap and 3 new screen guards.

If the Advert is still active, the Gear is still.
