Excellent high end speakers with 12 inch side fire active drivers.The units is 96dB witch makes them very efficient.Amp requirement is 10 to 150w and impedance is 6 ohm. Because each unit has its own amp to drive the 12 inch bass driver one does not need a big amp to drive them.They will work perfectly for stereo or home theater use.Speakers cost around 3000 dollars new.Please note that no grills for the tops is available but all the bottom grills are there.They are in good condition and plays 100%.Please no silly offers or swaps.The units weigh 35kg each.Demos welcome before.
