Stock Code:AUSDX64GUICL10 / 275 in stock

Description
This Premier series memory card implements the latest SDA 3.0 specification UHS-I (Ultra High Speed 1, in compliance with SD 2.0 Class 10 speed) for impressive performance, and comes with an entry-level price for consumers who want a dedicated card for their smartphone or tablet PC.

Increased Speed, No Increase in Cost
Premier microSDHC/SDXC UHS-I U1memory cards have higher capacity, but without a higher price, and provide consumers with the faster read speeds of UHS-I U1 specification at the price of a Class 10 card. Sequential reads are up to 50 Mbps, and write speeds reach the UHS-I speed class 1 specification. Random read and write IOPS are 1400 and 100 respectively. They are remarkably suitable for users who enjoy high definition photography and video recording. Running multiple applications simultaneously causes no loss in read/write speed. (Data is based on internal tests. Test results will vary depending on different platforms and software.)

Durability
These memory cards employ Error-Code Correction (ECC), and are extremely cold-resistant, heat-resistant and impervious to x-rays, making them one of the world's most rugged memory cards.

Wide Range of Capacities
These come up to the 8GB, 16GB, 32GB, and 64GB capacity. Every 8-bundle edition includes a single memory card and an SD adapter card, for widest, easy portable access to and from hardware.

Features
Brand: ADATA
Series: Premier
Model: AUSDX64GUICL10-RA1
Type: microSDXC

Specifications
Capacity: 64GB

Speed Class Rating: UHS-1/Class 10

Features
Compatiblity: Smartphones, tablet computers
Operating voltage: 2.7~3.6Volt
Random Read/Write: 1400/100IOPs

Price is NOT negotiable. All products are new in sealed boxes under warranty. We are an ONLINE store with warehouses in Cape Town, Durban, Midrand and Port Elizabeth.
Deliver through Courier Direct after payment cleared or pick up at.
