The LG CAM Plus is a versatile camera module that can be attached through the battery slot to deliver a comfortable grip and the convenient control of a standalone camera.

The LG CAM Plus provides physical buttons for power, shutter, record, zoom, LED indicator and a comfortable grip. It also offers intuitive auto focus and exposure lock, features usually found on standalone digital cameras.

When attached to the LG G5, it provides an additional battery capacity of 1,200mAh to allow for longer shooting times, giving you more fun and the best enjoyment.
