---	--	--	--	---	--	--	--	--	--

These are just some of the common DJ equipment that the fully trained engineers repair on a regular basis.

Our team can diagnose and repair a wide range of different faults that can happen with DJ equipment. These include things such as cosmetic damage, fire accidents, key-opping the CD player, sound distortion due to loose internal connections and even replacement parts for missing buttons and power packs.

All disco equipment repaired from X-Bytes repair centre comes with a warranty for your peace of mind. Get your free estimate regarding DJ equipment repairs by email or call the team during business hours for more information.
