Before you purchase a used lexus 450H just remember it will need the Hybrid battery change at 195000km( + - R80000) whether it's working or not, so on this one the Lexus=Midrand changed it already, what an advantage. to confirm what i just declare now take the number plate and call any Lexus agent to double check. this is a V6 power vehicle but with a fuel consumption(hybrid car) of a vw golf or jetta...the cheapest in the country for just R199000. full service,2 keys,spare tyre, contact
