Good Day,

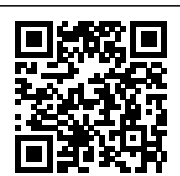

Our plot / small holding in 60/2 Baard Road, Raslouw, Centurion, is in the market and you are welcome to list and market the property? The price we want is R3mil and you are welcome to add your commission on top of that, I don't think the plot will go for much more than R3.2 or R3.1, so I actually suggest you selling it for R3.1mil on the market, which includes R100k in commission for you then.

About 2 years back the plot was valued for R3.2mil, so it should at least be the same value if not more . . .

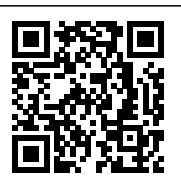

There are a few requirements from our side:

- We will send you the photos, so it's not necessary for you to come and take photos or list the property. I also took time to give you as much info as possible.
- We are not giving any sole mandates.
- NO correx boards are allowed to be put up in the street in front of our house, I don't want anyone just walking in the street to know the house is up for sale as this opens us up to robbers or people with ill intent.
- You are welcome to advertise the property in your magazine, on the internet and other marketing channels.

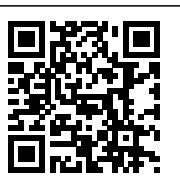

- We are also not holding any show house days as we cannot vacate the house for a day, but you are welcome to bring the agent to view the property at any time of the day between 8am and 5pm, on a daily basis. I am only contacting you directly regarding our property and I don't want to be a bother to my neighbours. I am not a real estate agent, so please contact me directly for this property.
