Hello! Bought this new 2 years ago for 5k. Has DVD, maps, steering controls, ipod, USB, SD card. Pretty much does it all. Can be used in other cars also like a GOLF 5 etc. Ive put in my stock unit because I'm selling my car. Unit is in immaculate condition but Maps function is outdated and needs a new license which you can purchase online. I dont have model number. I ran two amps with this head unit.
