1984 Honda CB900F Model

This Bike has been completely overhauled and customized by V-Custom Cycles as a Cafe Racer.
 This project was done for a client who now unfortunately can't afford to pay the amount required for the build. We are trying to recover our input cost only and we are willing to forfeit any profit margin and at least 60 hours in Build and Fabrication labour cost. We can assure you that this bike is better than when it first rolled from the production floor in 1984 and a conservative estimate for the build and donor bike would be R140 000.00.

We would only like to recover our cost on this bike!
